

# FOREVER IT SHALL BE

## RELUMING THE EMBERS

street date: 22. Juni 2007

When a few old metal warhorses meet young fresh mosh blood you actually call it „generation conflict“. Or you call it Forever It Shall Be and raise a band out of the baptism that without breaking the rules extract the essence from the entirety and let it go on the manhood. Neck-breaking riffs, heartbreaking melodic lines in two voices...Forever It Shall Be looked at the musical way haven't got just balls, they also have heart and soul.

The quintet, watching back on a 14 years long musical tradition (under other names), mix mosh-compatible grooves with melodies that would be a credit on Iron Maiden as well. They're making music with such a huge musical ardor so they create an atmosphere not many bands succeed. Abandon and intensity combined with atrabilious romance and melodies full of atmosphere loosing neither energy nor pressure.

Forever It Shall Be embody the new century of metal and are not for nothing applied to be one of the hopeful bands in melodic metal the old continent contains at the moment.

"Reluming The Embers", coming with some guest vocals from John Gahlert (FALL OF SERENITY) is recorded in the end of 2006 in the well known "Rape Of Harmonies" Studio in Triptis and is produced by Ralf Müller and Alexander Dietz (HEAVEN SHALL BURN). Anybody who is into albums like IN FLAMES' "Whoracle" or HEAVEN SHALL BURN and anybody who is like "Mosh Parts" and "Headbanging" equally, should check this one out!
