CONTAMINATED

street date: 06 november 2009

Austrian Neckbreaking Death Metal

Founded in Winter 2000, Austrian Outfit OUTRAGE ever since then had their roots in traditional Death Metal, which they enriched with Oldschool/Rock Influences, what led to – in their own words – Neckbreaking Death Metal. Besides US/Florida Death Metal Heroes of the 90's, classic Metal- and Rock Icons like ACDC, Sepultura and Six Feet Under were their main influences.

After the release of the first Demo CD "...and deeper" in 2002 the Band played every Stage they could, and in 2006 they put out their first Studio Album "Switch Off The Pain". A vast number of Support Shows followed with bands such as Obituary, Betzefer, Graveworm, and also Festivals like Kaltenbach Open Air, Hellraiser Open Air, Summer Nights, or Metalcamp '05, '07, '08.

Over the years characteristic trademarks manifested in the Sound of Outrage. Brutal Groove, murdering Guitar Riffs, and a sense for brutal Breakdowns are flowing throughout their Songs Not following current Trends but their own Motivation, armed with the fitting Lyrics about Melancholy, Anger, and Frustration, Outrage knock down the willing Audience like a Ten Ton Hammer.

The actual Album "Contaminated" was nailed in the well known "Kohlekeller Studios" in Germany, and unites - in a devastating strike - a message full of social criticism and a real-life brutality with the cornerstones of their creations into an Album, on which the Band tried to realize their full Potential.

Outrage are not out there to be the coolest Band on the Planet, but to let their emotions run free. Hate against daily life, social riots, emotional misery, and the killing of our World, as we experience it every day.
